[57] **CLAIM**

The ornamental design for a detachable case, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view showing the top, front, right side, and a portion of the left side of a detachable case, according to our new design;
FIG. **2** is a front elevated view of the detachable case;
FIG. **3** is a top plan view of the detachable case;
FIG. **4** is a rear elevated view of the detachable case;
FIG. **5** is a left side elevated view of the detachable case;
FIG. **6** is a right side elevated view of the detachable case;
FIG. **7** is a bottom plan view of the detachable case;
FIG. **8** is a perspective view of the detachable case showing the detachable case opened approximately to ¾ of a fully opened position;
FIG. **9** is a perspective view of the detachable case showing the detachable case in the fully opened position, with a central attachment rail positioned approximately at 270 degree from normal;
FIG. **10** is a perspective view of the detachable case showing the detachable case in the fully opened position and showing the central attachment rail in the 90 degree position; and,
FIG. **11** is a perspective view of the detachable case of FIG. **1**, showing the detachable case in the fully opened position and showing the central attachment rail in the fully opened position.
