US006312304B1

(12) **United States Patent**
Duthaler et al.

(10) **Patent No.: US 6,312,304 B1**
(45) **Date of Patent: Nov. 6, 2001**

(54) **ASSEMBLY OF MICROENCAPSULATED ELECTRONIC DISPLAYS**

(75) Inventors: **Gregg M. Duthaler**, Brookline; **Peter T. Kazlas**, Sudbury; **Paul S. Drzaic**, Lexington, all of MA (US)

(73) Assignee: **E Ink Corporation**, Cambridge, MA (US)

(*) Notice: Subject to any disclaimer, the term of this patent is extended or adjusted under 35 U.S.C. 154(b) by 0 days.

(21) Appl. No.: **09/461,463**

(22) Filed: **Dec. 14, 1999**

Related U.S. Application Data

(63) Continuation-in-part of application No. 09/338,412, filed on Jun. 22, 1999, now abandoned, and a continuation-in-part of application No. 09/289,036, filed on Apr. 9, 1999

(60) Provisional application No. 60/112,330.

(57) **ABSTRACT**

An electro-optical device is manufactured by separately manufacturing an electronic component and an optical component and subsequently integrating the electronic and the optical components. Separate fabrication of the two components allows each component to be manufactured using processes which optimize its properties.
