United States Patent [19]

Morley et al.

[11] **Patent Number: 4,565,702**

[45] **Date of Patent: Jan. 21, 1986**

[54] **DIETARY FIBER FOOD PRODUCTS AND METHOD OF MANUFACTURE**

[75] Inventors: **Robin C. Morley**, Hackettstown; **Shri C. Sharma**, Mendham, both of N.J.

[73] Assignee: **Warner-Lambert Company**, Morris Plains, N.J.

[21] Appl. No.: **616,990**

[22] Filed: **Jun. 4, 1984**

[51] **Int. Cl.**[4] **A23L 1/29**

[52] **U.S. Cl.** **426/93**; 426/804; 426/302

[58] **Field of Search** 426/89, 93, 804, 289, 426/291, 293, 302

[57] **ABSTRACT**

A dietary fiber composition is prepared by coating an insoluble fiber with a soluble fiber. The insoluble fiber is preferably derived from cereal bran by enzymatically and chemically purifying the bran. The soluble fiber is preferably pectin or an alginate. The dietary fiber composition can be used to prepare low calorie, high fiber content dietary food products.
