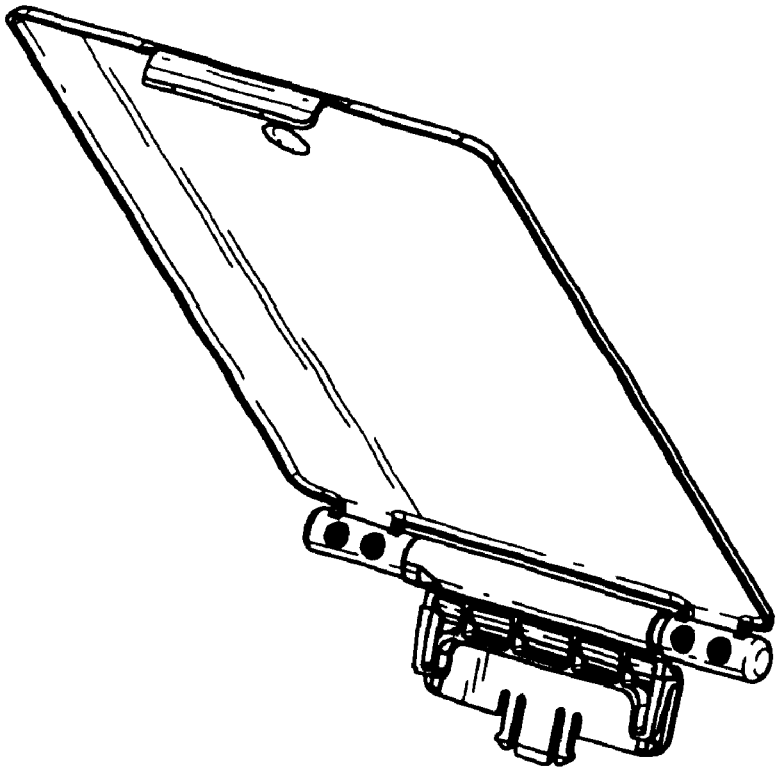
(57) **CLAIM**

The ornamental design for flip door for personal digital assistant, as shown and described.

**DESCRIPTION**

FIG. **1** is a front perspective view of a flip door for personal digital assistant according to the present invention;
FIG. **2** is a front elevational view thereof;
FIG. **3** is a right elevational view thereof;
FIG. **4** is a rear elevational view thereof;
FIG. **5** is a front perspective view of a flip door for personal digital assistant according to the present invention, attached to a personal digital assistant;
FIG. **6** is a front elevational view thereof;
FIG. **7** is a right elevational view thereof; and,
FIG. **8** is a rear elevational view thereof.
The broken line showing of a personal digital assistant is for illustrative purposes only and forms no part of the claimed design.


**1 Claim, 4 Drawing Sheets**
