US005226911A

United States Patent [19]

Chee et al.

[11] Patent Number: 5,226,911

[45] Date of Patent: Jul. 13, 1993

[54] VASOOCCLUSION COIL WITH ATTACHED FIBROUS ELEMENT(S)

[75] Inventors: U. Hiram Chee, Palo Alto; Mike Mariant, Santa Clara, both of Calif.

[73] Assignee: Target Therapeutics, Fremont, Calif.

[21] Appl. No.: 771,013

[22] Filed: Oct. 2, 1991

[57] ABSTRACT

A device for occluding a blood vessel comprising a helical metal coil having at least one fibrous element attached to its proximal end wherein the fibrous element(s) extends in a sinusoidal wave configuration, the loops of which extend about individual windings at spaced intervals along the axis of the coil.
