US005717030A

United States Patent [19]

Dunn et al.

[11] Patent Number: 5,717,030

[45] Date of Patent: Feb. 10, 1998

[54] **ADJUNCTIVE POLYMER SYSTEM FOR USE WITH MEDICAL DEVICE**

[75] Inventors: **Richard L. Dunn; Gerald L. Yewey; Jeffrey L. Southard; John E. Urheim**, all of Fort Collins, Colo.

[73] Assignee: **Atrix Laboratories, Inc.**, Fort Collins, Colo.

[21] Appl. No.: **761,522**

[22] Filed: **Dec. 6, 1996**

Related U.S. Application Data

[60] Continuation of Ser. No. 475,097, Jun. 7, 1995, which is a division of Ser. No. 226,006, Apr. 8, 1994.

[57] **ABSTRACT**

A medical device which is a surgically implantable device coated with an adjunctive polymer system. The adjunctive polymer system forms a solid matrix when introduced into a human or animal body. The adjunctive polymer system can contain a drug or a medicament which is released over time from the solid matrix. The adjunctive polymer system contacts body tissue into which the surgically implantable device is implanted.
