900
AV > last version, AV has a modified (replaced) property
910
In AV, define default value of new property in OPL, old property remains unchanged in OPL
920
When loading file, read old property and convert it to the new property
930
Save new property; convert new property to correspond to old property and also save as old property
940
Update last version to active version
End
