US005278149A

United States Patent [19]

Provost et al.

[11] Patent Number: 5,278,149

[45] Date of Patent: Jan. 11, 1994

[54] METHOD OF PREPARING TOTAL PARENTERAL NUTRITION SOLUTIONS

[75] Inventors: **Pamela S. Provost**, Brighton; **David F. Driscoll**, West Bridgewater; **Bruce R. Bistrian**, Ipswich, all of Mass.

[73] Assignee: **New England Deaconess Hospital Corporation**, Boston, Mass.

[21] Appl. No.: **822,526**

[22] Filed: **Jan. 17, 1992**

[51] **Int. Cl.**[5] **A61M 37/00**; A61M 31/00; A61K 31/70; A61K 37/22

[57] **ABSTRACT**

A method of preparing TPN solutions, which is particularly well adaptable to computerized control, has been developed. These methods can assist the pharmacist or physician in the preparation of three-in-one TPN solutions containing lipid, dextrose and amino acids. The method includes a series of criteria for concentrations of lipid, dextrose, amino acids, and ions as well as eliminating the possibility of certain deleterious interactions.
