UNITED STATES PATENT OFFICE

CERTIFICATE OF CORRECTION

Patent No. 3,713,868 Dated January 30, 1973

Inventor(s) Philip L. Gordon and Augustin LaTorre

It is certified that error appears in the above-identified patent and that said Letters Patent are hereby corrected as shown below:

In column 13, claim 18, after part "iii", line 5, the following steps should be added:

(b) drying the foam-coated layer at a temperature of less than 300°F to obtain a dry compressible foam coating;

(c) densifying the dried foam coating by the application of pressure to reduce the thickness of the foam coating; and

(d) heating and densified foam coating to a temperature of 300 to 425°F to cross-link the copolymer and the resin.

Signed and sealed this 3rd day of July 1973.

(SEAL)
