US005272469A

United States Patent [19]

Memarzadeh

[11] Patent Number: 5,272,469

[45] Date of Patent: Dec. 21, 1993

[54] PROCESS FOR MAPPING HIGH RESOLUTION DATA INTO A LOWER RESOLUTION DEPICTION

[75] Inventor: Kazem Memarzadeh, Cambridge, Ohio

[73] Assignee: NCR Corporation, Dayton, Ohio

[21] Appl. No.: 724,244

[22] Filed: Jul. 1, 1991

[51] Int. Cl.[5] G09G 5/00

[52] U.S. Cl. 345/173; 345/156

[57] ABSTRACT

A technique for mapping high resolution data into a lower resolution frame, in applications in which the original high resolution data contains a small amount of noise. The improvement is achieved by the introduction of a hysteresis loop into the mapping process.
