Page 3, column 2, line 33,

Li et al. Reference, "Processable aqueous dispersions of grapheme nanosheets" should read --Processable aqueous dispersions of graphene nanosheets--

<u>In the Specification:</u>

Column 1, line 41, "a metal oxides" should read --a metal oxide--.

Column 2, line 31, "material of the forgoing" should read --material of the foregoing--.

Column 2, line 56, "following drawing" should read --following drawings--.

Column 3, line 15, "inventive scope is" should read --inventive scope are--.

Column 3, line 58, "ultra highly purity" should read --ultra high purity--.

Column 4, line 37, "ultra highly purity" should read --ultra high purity--.

Column 4, line 48, "100 cycle" should read --100 cycles--.

Column 5, line 3, "ultra highly purity" should read --ultra high purity--.

Column 5, line 16, "that 5% capacity" should read --than 5% capacity--.

<u>In the Claims:</u>

Column 5, line 66, "dispersing qraphene" should read --dispersing graphene--.

Column 6, line 4, "qraphene nanocomposite" should read --graphene nanocomposite--.

Column 6, lines 27-28, "to solvent" should read --to a solvent--.
