United States Patent [19]

Stoy et al.

[11] **Patent Number: 4,731,078**

[45] **Date of Patent: Mar. 15, 1988**

[54] **INTRAOCULAR LENS**

[75] Inventors: **Vladimir A. Stoy; George P. Stoy,** both of Princeton, N.J.

[73] Assignee: **Kingston Technologies Limited Partnership,** Dayton, N.J.

[21] Appl. No.: **767,808**

[22] Filed: **Aug. 21, 1985**

[51] **Int. Cl.**[4] **A61F 2/16**

[52] **U.S. Cl.** **623/6**

[58] **Field of Search** 623/6

[57] **ABSTRACT**

An artificial intraocular lens features an optical body for refracting images onto the retina and an outer surface that encloses the optical body, is exposed to fluid within the eye, and has a refractive index no greater than 1.40. In another aspect, the optical body includes an internal refractive surface whose contour can be selectively changed to change its refractive power.
