US008142895B2

(12) **United States Patent**
Khanarian et al.

(10) **Patent No.: US 8,142,895 B2**
(45) **Date of Patent: *Mar. 27, 2012**

(54) **HEAT STABLE ARYL POLYSILOXANE COMPOSITIONS**

(75) Inventors: **Garo Khanarian**, Princeton, NJ (US); **David Wayne Mosley**, Philadelphia, PA (US)

(73) Assignee: **Rohm and Haas Company**, Philadelphia, PA (US)

(*) Notice: Subject to any disclaimer, the term of this patent is extended or adjusted under 35 U.S.C. 154(b) by 84 days.

This patent is subject to a terminal disclaimer.

(21) Appl. No.: **11/974,063**

(22) Filed: **Oct. 11, 2007**

(65) **Prior Publication Data**

US 2008/0090986 A1 Apr. 17, 2008

(57) **ABSTRACT**

A curable aryl siloxane composition is disclosed. A heat stable cured aryl polysiloxane composition is further disclosed, along with a method of making that heat stable cured aryl polysiloxane composition from the curable aryl siloxane composition. An encapsulated semiconductor device, and a method of making that encapsulated semiconductor device by coating a semiconductor element of a semiconductor device with the heat stable cured aryl polysiloxane are further disclosed.
