[21] Appl. No.: **770,327**

[57] **ABSTRACT**

[22] Filed: **Oct. 3, 1991**

A medical device for insertion into a body, wherein a part of a substrate thereof destined to be inserted into the body is furnished with a coating of a polymer manifesting lubricity in a wetted state and a part of said substrate destined substantially not to be inserted into the body is furnished with said polymer coating treated for divestiture of lubricity.
