(57) **ABSTRACT**

A bracelet comprises at least one electronic display unit. The or each display unit has a display **(9)** having a plurality of display elements arranged in a sequence lying along the length of the bracelet and/or arranged in a sequence lying substantially around the perimeter of the display. The bracelet has control circuit **(15)** to control the display elements so that the characters displayed by the display elements appear to move along the sequence of display elements with time.
