(57) **ABSTRACT**

A three dimensional visual element includes a decal or other device to simulate a crack or break within the wall on which the visual elements is mounted. The visual element also includes a functional feature, such as a light, shelf support, or electronic device. A three dimensional representation of a soccer ball is provided wherein the soccer ball is surrounded by a clear plastic decal having a cracking so as to represent cracks within the wall on which the device is mounted. Within the shell of the soccer ball, are lighting elements which allow the device to be used as a nightlight.
