

[54] ICE CREAM SCOOP

2,756,698 7/1956 Eichin et al. 425/286

[76] Inventor: Scott Alberts, 3074 N. Lima St.,
Burbank, Calif. 91504

Primary Examiner—Willard Hoag
Attorney, Agent, or Firm—James E. Brunton

[21] Appl. No.: 18,423

[57] ABSTRACT

[22] Filed: Feb. 25, 1987

An improved ice cream scoop for scooping ice cream from bulk containers of the character having a spring biased ejection mechanism for ejecting the ice cream from the scoop in which, upon a failure of the ejection mechanism, a new mechanism can be easily and quickly installed without the use of tools and without the need for removal of fasteners of any kind.
