[57] **ABSTRACT**

Portable barbecue assemblies capable of being folded into attache type carrying case configuration, particularly a barbecue grill assembly capable of baking smoking and grilling in the assembled mode and in the disassembled mode capable of being formed into an attache case configuration of convenient carrying. The unit is characterized by its highly rigidized assembly, its dual baking and grilling capabilities, as well as the adjustability of its top cover as windshield, a shelf or a baking oven closure, as well as the adjustability of the interior grates for varying types of grilling and cooking.
